# GREAT NAVAL BATTLES™ Vol. II GUADALCANAL

Volume II in SSI's  
ADVANCED SIMULATOR  
SERIES is going to  
blow you away!

GREAT NAVAL BATTLES™:  
NORTH ATLANTIC, 1939-43  
launched the series by putting  
you on the bridge of the great German  
and British warships of World War II.

Now, **GUADALCANAL** takes you to  
the South Pacific for 5 tactical battles,  
3 carrier battles, one full campaign and  
limitless hours of cutting-edge naval combat  
simulation — *all in Super-VGA!*

Build your forces from 100 ship types and 20  
plane types as you engage enemy forces on land,  
at sea, and in the air. Sophisticated command and  
control features let you give the computer responsibility  
for the details while you make the big decisions.  
Or, micro-manage every detail — right down to  
the targeting of individual guns!

## ARCHON, ONE OF THE ALL-TIME BEST-SELLING ACTION/STRATEGY GAMES EVER, IS BACK!

ARCHON ULTRA boasts completely updated anima-  
tion, graphics, music and digitized sound effects.  
Plus all-new enhancements, such as the ability  
to battle opponents *on-line using your modem*.

As the light or  
dark side, seek to  
conquer the ever-  
changing Archon  
board with fantasy  
pieces that now

possess two powers! When two opposing pieces  
try to occupy the same square, fight it out in real-  
time arcade action on one of three new types of  
battle maps! Or let the computer resolve combat

quickly. Your goal:  
defeat all enemy  
pieces or conquer  
the five Power  
Points on the  
Archon board!

**Create Alliances, Defeat Enemy Kingdoms — Forge an Empire!**

FANTASY EMPIRES™ is the first D&D® game to feature a computer DUNGEON MASTER™, who mediates all elements of game play. Thanks to advanced technology, superior animation, 256-color VGA display and digital sound effects, the DM™ literally comes to life on the screen. Designed for up to five players, you face one to four adversaries — either human or chosen from among 20 different computer-controlled opponents. Interact with fantastic races, command dozens of troop types, send your heroes on quests and construct a variety of buildings and fortifications. Extensive character interaction, utilizing advanced AI and Neural Network technology throughout the game, provides for diplomatic tactics. When combat occurs, the game switches from a strategic map to a tactical screen that shows real-time action in one of the most spectacular overhead perspectives yet.
